

Umbrella Coverage

When your present auto, home, or farm insurance coverage isn't enough, an umbrella policy may be the answer. Did you know that courts frequently award verdicts in excess of \$1,000,000? A judgment of this kind could be devastating to your family. A single, major incident can be a financial disaster that could wipe out your savings, force the sale of your home or farm, and liquidate your assets. An umbrella policy covers and protects you in the event of such a judgment.

Ask your agent about the umbrella coverage. You'll be surprised at the amazing low cost of such a high level of coverage.

Umbrella insurance offers:

- Protection for liability losses anywhere in the world
- Protection against many losses where you currently have no coverage
- Libel, slander and false arrest
- Damage to property of others in your care (Personal Umbrella only)
- Defense against court suits whether or not you are liable.

We hope that you never have to experience such a catastrophe; however, it is comforting to know that you are protected . . . just in case!
